(54) Title: METHOD AND APPARATUS FOR CONTROLLING AN EXTERNAL DEVICE BY REMAPPING KEYS ON A USER INPUT DEVICE

(57) Abstract: An apparatus (20) such as a television signal receiver controls an external device (40) such as a digital recording/reproduction device via a digital data bus (30) by remapping keys on a user input device (10). According to an exemplary embodiment, the apparatus includes an input/output terminal (13) operative to enable signal transfer between the television signal receiver (20) and an external device (40) via a digital data bus (30). A processor (14) is operative to detect a first command signal of a first control protocol from a user input device (10), and to detect one of first and second modes of the television signal receiver (20). The processor (14) detects the first mode in response to making a connection between the television signal receiver (20) and the external device (40) via the digital data bus (30), and detects the second mode in response to terminating the connection between the television signal receiver (20) and the external device (40) via the digital data bus (30). The processor (14) enables the input/output terminal (13) to output a second command signal of a second control protocol to the external device (40) via the digital data bus (30) responsive to the first command signal if the first mode is detected. The processor (14) enables a function of the television signal receiver (20) responsive to the first command signal without enabling output of the second command signal to the external device (40) if the second mode is detected.

# INTERNATIONAL SEARCH REPORT

International Application No  
PC1/US2004/013861

A. CLASSIFICATION OF SUBJECT MATTER  
IPC 7 H04N5/445

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 H04L H04N G06F

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 4 817 203 A (TSURUMOTO ET AL) 28 March 1989 (1989-03-28) the whole document	1-24
A	EP 1 113 442 A (LG ELECTRONICS INC) 4 July 2001 (2001-07-04) the whole document	1-24
A	US 5 598 523 A (FUJITA ET AL) 28 January 1997 (1997-01-28) column 3, line 20 - line 39 column 5, line 9 - line 67	1-24

☐ Further documents are listed in the continuation of box C.

☒ Patent family members are listed in annex.

\* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

- \*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \* & \* document member of the same patent family

Date of the actual completion of the international search
